B. Regulatory changes and consequential amendments to the Scheme

Since the Demerged Company was declared a sick industrial company within the meaning of section 3(1)(o) of the SICA by the BIFR, the said Scheme was required to be filed only with BIFR for its approval. Accordingly, on April 22, 2016, the Demerged Company had filed the said Scheme with BIFR vide its letter dated April 18, 2016 under BIFR Case No.09/2002 ("**Case**").

As the Scheme was not required to be filed with the High Court or Tribunal for its approval when it was approved by the Board of Directors of both the companies and was required to be filed only with BIFR, the provisions of erstwhile Clause 24(f) of the Listing Agreement and/or regulation 37 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirement) Regulations, 2015 and SEBI circulars No. CIR/CFD/DIL/5/2013 dated February 4, 2013 and CIR/CFD/CMD/16/2015 dated November 30, 2015 (**"SEBI Scheme Circulars"**), in respect of filing of draft scheme of arrangement with the stock exchange(s) / SEBI for obtaining Observation Letter or No-Objection Letter were not applicable to the Resulting Company.

However, subsequently, the Central Government of India, vide Notification No. S.O. 3568 (E) dated November 25, 2016, brought the provisions of SICA Repeal Act into force with effect from December 1, 2016 and SICA was repealed.

Section 4(b) of SICA Repeal Act (as amended by section 252 of the Insolvency and Bankruptcy Code, 2016) provides that any proceeding of whatever nature, pending before BIFR shall stand abated. Accordingly, the Scheme filed by the Demerged Company stood abated as on December 1, 2016. With the notification of SICA Repeal Act, the provisions of regulation 37 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirement) Regulations, 2015 and SEBI Scheme Circulars have become applicable to the Resulting Company as the Scheme was then required to be filed with Tribunal.

On March 10, 2017, SEBI vide its Circular No. CFD/DIL3/CIR/2017/21 ("Revised SEBI Scheme Circular"), amended the regulatory framework for schemes of arrangements. The provisions of Para 8 of the Revised SEBI Scheme Circular, inter-alia, states that in cases of the issuance of shares under schemes to a select group of shareholders or shareholders of unlisted companies, the issuer shall follow the pricing provisions of Chapter VII of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2009 ("SEBI ICDR Regulations"). Further, as per Para 6 of the said Revised SEBI Scheme Circular, the schemes filed with the stock exchange(s) / SEBI after the date of the Revised SEBI Scheme Circular shall be governed by its provisions.

On September 29, 2017, the Resulting Company had filed the Scheme with the stock exchanges under regulation 37 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirement) Regulations, 2015 with a request for waiver from the requirements of adhering to the pricing provisions of Chapter VII of SEBI ICDR Regulations considering the fact that the Scheme was approved by the Board of Directors of both the companies well before the issue of the said Revised SEBI Scheme Circular. However, the stock exchanges requested the Resulting Company to amend the Scheme and the Valuation Report to meet with the requirements of the Revised SEBI Scheme Circular.

Accordingly, the Board of Directors of the Demerged Company and Resulting Company, in their respective meetings held on November 9, 2017, considered and approved the revised valuation / share entitlement ratio for a demerger of the manufacturing business of Demerged Company into the Resulting Company and made consequential amendment to the Scheme.

C. Approval to the amended Scheme

The Scheme, suitably amended with revised share entitlement ratio for a demerger of the manufacturing business of Demerged Company into the Resulting Company, was placed before the Audit Committees' of the Demerged Company and Resulting Company at their respective meetings held on November 9, 2017. The Audit Committees' of the Demerged Company and Resulting Company considered the revised Valuation Report dated October 31, 2017 issued by Messrs Katre Barwe & Associates, Independent Chartered Accountants and revised Fairness Opinion dated November 1, 2017 issued by SPA Capital Advisors Limited, Merchant Banker, and thereafter recommended the amended Scheme for the approval of the Board of Directors of the respective companies.

The Board of Directors of the Demerged Company and the Resulting Company at their respective Board Meetings held on November 9, 2017 approved the amended Scheme, after taking on record the revised Valuation Report dated October 31, 2017 issued by Messrs Katre Barwe & Associates, Independent Chartered Accountants and revised Fairness Opinion dated November 1, 2017 issued by SPA Capital Advisors Limited, Merchant Banker. The same are annexed to this Notice as **Annexure B-1 and B-2** respectively.

Dear Sirs/Madams,

We refer to the engagement letter dated 12 October 2015 and addendum letter dated 9 November 2015 with S.R. Batliboi & Co. LLP (hereinafter referred to as "we" or "SRBC" or "us") wherein Bajaj Electricals Limited ("BEL") and Hind Lamps Limited ("HLL") have requested us to recommend a fair entitlement ratio as at 20 November 2015 ("Valuation Date"), based on the balance sheet as at 30 September 2015, of equity shares of BEL to be issued to the shareholders of HLL for the proposed demerger of the manufacturing business of HLL into BEL ("Fair Entitlement Ratio").

Recommendation of fair entitlement ratio of equity shares of BEL to be issued to the shareholders of HLL for the proposed demerger of manufacturing business of HLL into BEL

BEL also undertakes turnkey, commercial and rural lighting projects; designs, manufactures erects and commissions high masts, poles and towers. BEL's registered office is at 45/47, Veer Nariman road, Fort, Mumbai – 400 001. Maharashtra, India. Its equity shares are listed on Bombay Stock Exchange ("BSE"), National Stock Exchange ("NSE") and Delhi Stock Exchange.

Hind Lamps Limited was founded on 30 April 1951. Its registered office is at Shikohabad, Firozabad, Uttar Pradesh India. HLL is engaged in manufacturing of glass bulbs, high intensity discharge (HID) bulbs and aluminum caps. Its manufacturing unit is located at Shikohabad, Uttar Pradesh and Parwanoo, Himachal Pradesh. The manufacturing activity of HLL is hereinafter referred to as 'the Undertaking'. HLL also has a trading unit which is engaged in the business of selling these units to the end consumer. HLL has been declared as a sick industrial company within the meaning of section 3(1)(o) of the Sick Industrial Companies (Special Provisions) Act, 1985 ("SICA") by the Board for Industrial and Financial Reconstruction ("BIFR").

BEL and Undertaking of HLL are hereinafter collectively referred to as "Valuation Subjects".

BEL and HLL are hereinafter collectively referred to as "Companies".

We understand that Managements of the Companies ("Management") are evaluating a demerger of the Undertaking into BEL on a going concern basis under a Scheme of Arrangement under the provisions of Section 18 of the SICA (hereinafter referred to as "the Demerger Scheme" or "Proposed Demerger"). We understand that as consideration, HLL shareholders (except BEL) would be issued equity shares of BEL, in proportion to their shareholding in HLL, for demerging the Undertaking into BEL. The Fair Entitlement Ratio would be determined based on the value of each equity share of BEL and the equity value of the Undertaking per equity share of HLL.

Recommendation of fair entitlement ratio of equity shares of BEL to be issued to the shareholders of HLL for the proposed demerger of manufacturing business of HLL into BEL

APPROACH - BASIS OF DEMERGER

The Proposed Demerger scheme contemplates the demerger of Undertaking into BEL pursuant to the Demerger Scheme under the provisions of Section 18 of the SICA. Arriving at the Fair Entitlement Ratio of equity shares for the Proposed Demerger of the Undertaking into BEL would require determining the relative values of the Undertaking in terms of BEL. These values are to be determined independently but on a relative basis and without considering the effect of the current demerger transaction.

There are several commonly used and accepted methods for valuation of companies/businesses to determine the fair entitlement ratio for a demerger, which have been considered in the present case, to the extent relevant and applicable, including:

- Market Price method
- Comparable Companies' Multiples (CCM) method / Comparable Transactions Multiple (CTM) method
- Discounted Cash Flows method
- Net Asset Value method

It should be understood that the valuation of any company/businesses or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our valuation, we made numerous assumptions with respect to industry performance and general business and economic condition, many of which are beyond the control of the companies. In addition, this valuation will fluctuate with changes in prevailing market condition, the condition and prospects, financial and otherwise of the companies, and other factors which generally influence the valuation of the companies / businesses and their assets.

The application of any particular method of valuation depends on the purpose for which the valuation is done. Although different values may exist for different purposes, it cannot be too strongly emphasized that a valuer can only arrive at one value for one purpose. Our choice of methodology of valuation has been arrived at using usual and conventional methodologies adopted for transactions of a similar nature and our reasonable judgment, in an independent and bona fide manner based on our previous experience of assignments of a similar nature.

Market Price Method

The market price of an equity share as quoted on a stock exchange is normally considered as the fair value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares. But there could be situations where the value of the share as quoted on the stock market would not be regarded as a proper index of the fair value of the share especially where the market values are fluctuating in a volatile capital market. Further, in the case of a demerger, where there is a question of evaluating the shares of one company against those of another, the volume of transactions and the number of shares available for trading on the stock exchange over a reasonable period would have to be of a comparable standard.

In the present case, the shares of BEL are listed on recognized stock exchanges like BSE, NSE and Delhi Stock Exchange and there are regular transactions in its equity shares with adequate volumes on BSE and NSE. In these circumstances, the share price observed on NSE for BEL over a reasonable period have been considered for determining the value of BEL under the market price methodology. The Undertaking is a part of HLL and HLL's shares are not listed on any recognized stock exchange.

Comparable Companies' Multiple (CCM) method / Comparable Transactions Multiple (CTM) method

Under this method, value of the equity shares of a company / business is arrived at by using multiples derived from valuations of comparable companies or comparable transactions, as manifest through stock market valuations of listed companies and the transaction valuation. This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

Recommendation of fair entitlement ratio of equity shares of BEL to be issued to the shareholders of HLL for the proposed demerger of manufacturing business of HLL into BEL

In the present case, there are no listed Indian comparable companies having business similar to the Undertaking and since we have considered Market Price Method for valuation of BEL, we have not considered market based multiples method for the purpose of this exercise.

Discounted Cash Flows (DCF) Method

Under the DCF method, the projected free cash flows to the firm are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm.

Using the DCF method involves determining the following:

Estimating future free cash flows:

Free cash flows are the cash flows expected to be generated by the company that are available to all providers of the company's capital – both debt and equity.

Appropriate discount rate to be applied to cash flows i.e. the cost of capital:

This discount rate, which is applied to the free cash flows, should reflect the opportunity cost to all the capital providers (namely shareholders and creditors), weighted by their relative contribution to the total capital of the company. The opportunity cost to the capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk.

The Value arrived above under DCF method is adjusted for the value of loans, cash, nonoperating assets/liabilities as deemed appropriate.

Considering that the market price method is the best indicator of the value of a company, we have worked out value of BEL as per the DCF method, by using the business plan provided to us by the BEL Management, only for benchmarking purpose.

We have used the DCF method for our valuation of the Undertaking by using the business plan provided to us by the HLL Management.

Recommendation of fair entitlement ratio of equity shares of BEL to be issued to the shareholders of HLL for the proposed demerger of manufacturing business of HLL into BEL

Net Asset Value (NAV) Methodology

The asset based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. A Scheme of Arrangement would normally be proceeded with, on the assumption that the demerged business will continue on a going concern basis and an actual realization of the operating assets is not contemplated. In such a going concern scenario the relative earning power is of importance, with the values arrived at on the net asset basis being of limited relevance.

Considering the nature of the business of BEL and the Undertaking, we feel it is appropriate to give no weightage to this method for BEL and lower weightage for the Undertaking for valuation.

Recommendation of Fair Entitlement Ratio for Equity Shares

The fair basis of valuation would have to be determined after taking into consideration all the factors and methodologies mentioned hereinabove. For the purposes of recommending a Fair Entitlement Ratio of equity shares it is necessary to arrive at a single value for the Undertaking and the equity shares of BEL. It is however important to note that in doing so, we are not attempting to arrive at the absolute equity value of the Valuation Subjects but at their relative values to facilitate the determination of a Fair Entitlement Ratio. For this purpose, it is necessary to give appropriate weights to the values arrived at under each methodology.

In the ultimate analysis, valuation will have to be tempered by the exercise of judicious discretion and judgment taking into account all the relevant factors. There will always be several factors, e.g. quality and integrity of the Management, present and prospective competition, yield on comparable securities and market sentiment, etc. which are not evident from the face of the balance sheets but which will strongly influence the worth of a share. This concept is also recognized in judicial decisions.

In light of the above and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, we consider that the Fair Entitlement Ratio of equity shares for the proposed demerger of the Undertaking into BEL should be a ratio of 109 equity shares of BEL of ₹ 2/- each fully paid up for every 1,000 equity shares of HLL of ₹25/- each fully paid up.

*Land valuation has been done using Market comparison method. The valuation of the subject land is derived based on the adjusted asking prices for comparable land parcels in the vicinity of the subject land. The prices are adjusted based on location of the subject land, road frontage and usability of such land parcels. Our analysis is based on our interaction with local market participants and other data sets (such as guideline values for stamp duty purposes, land acquisition compensation paid by government, etc.).

Approaches / methods of valuation considered in Valuation Report for recommendation of fair entitlement / allotment ratio of equity shares of Bajaj Electricals Limited to be issued to the shareholders of Hind Lamps Limited

To,

The Board of Directors,	The Board of Directors,	
Bajaj Electricals Limited	Hind Lamps Limited	
45/47, Veer Nariman Road,	Shikohabad, Firozabad	
Mumbai-400 001	Uttar Pradesh 283141	

 This is with reference to our report dated 31 October 2017 on recommendation of fair entitlement /allotment ratio of equity shares of Bajaj Electricals Limited ("BEL") to be issued to the shareholders of Hind Lamps Limited ("HLL") for the proposed demerger of manufacturing business of HLL into BEL.

As required by Circular No. LIST/COMP/02/2017-18 dated 29 May 2017 issued by the BSE Limited ("BSE") and Circular No. NSE/CML/2017/12 dated 01 June 2017 issued by the National Stock Exchange of India Limited ("NSE") (hereinafter referred to as "Circulars"), we hereby present the requisite information in the format prescribed along with the approaches / methods of valuation considered in the Valuation Report.

Share Entitlement/Allotment Ratio in compliance with pricing provisions of Chapter VII of SEBI (ICDR) Regulations, 2009

Particulars	BE	ι	Manufacturing Business of HLL		
Valuation Approach	Value per share	Weight (%)	Value per share	Weight (%)	
NAV Method Approach / Asset Approach - Note 1	N.A.		0.00*	20.00	
DCF Method Approach / Income Approach – Note 2	N.A.		31.70	80.00	
Market Price Method / Market Approach – Note 3	260.90	100.00	N.A.		
Relative value per share	260.90		25.40		
Share entitlement / allotment ratio (rounded off)				0.097	

* Considered Nil, since net asset value is negative and HLL is a limited liability entity.

Conclusion : The fair entitlement/allotment ratio of equity shares for the proposed demerger of the manufacturing business of HLL into BEL, should be a ratio of 97 equity shares of BEL of Rs 2 each fully paid up for every 1000 equity shares of HLL of Rs 25 each fully paid up.

Approaches / methods of valuation considered in Valuation :

Note 1:

NAV Method Approach / Asset Approach

The asset based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. A Scheme of Arrangement would normally be proceeded with, on the assumption that the demerged business will continue on a going concern basis and an actual realization of the operating assets is not contemplated.

E-mail: abhishekkatre@katrebarwe.com • Tel.: 022-26834864 • Mob: 9821968858 / 7738004834 In such a going concern scenario the relative earning power is of importance, with the values arrived at on the net asset basis being of limited relevance.

Considering the nature of business of BEL and the Manufacturing Undertaking of HLL, we feel it is appropriate to give no weightage to this method for BEL and lower weightage for the Manufacturing Undertaking of HLL for valuation. The NAV of Manufacturing Undertaking of HLL is considered Nil since the net assets value is negative and HLL is a limited liability entity. Further, considering that the market price method is the best indicator of the value of the listed company, market price methodology was used for valuation for BEL (please refer Note 3 below) and NAV Method is not applicable for BEL.

Note 2 :

Discounted Cash Flow (DCF) Method Approach / Income Approach

Under the DCF method, the projected free cash flows to the firm are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm.

Using the DCF method involves determining the following:

Estimating future free cash flows:

Free cash flows are the cash flows expected to be generated by the company that are available to all providers of the company's capital – both debt and equity.

Appropriate discount rate to be applied to cash flows i.e. the cost of capital:

This discount rate, which is applied to the free cash flows, should reflect the opportunity cost to all the capital providers (namely shareholders and creditors), weighted by their relative contribution to the total capital of the company. The opportunity cost to the capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk.

The value arrived above under DCF method is adjusted for the value of loans, cash, non-operating assets/liabilities as deemed appropriate.

In business valuations, it is essential for the valuers to not only take into consideration the past profits of the company, but also look at its future profitability. The DCF method values the business by discounting the free cash flows for the explicit forecast period and the perpetuity value (terminal value) thereafter. The free cash flows represent the cash available for distribution to both, the owners and the creditors of the business. The perpetuity value of the entity is calculated to fully capture the growth capacity of the entity to infinity after the explicit period of projections. It is important for the valuer to consider the past growth rate of the company as well as to consider the future growth rate expected basis the future projections for the explicit period to arrive at the perpetuity growth rate. Thus, considering the multiple factors of inputs required for the calculation of DCF method, the information so required is regarded as price sensitive information, and so not suitable for listed company and hence the market price is regarded as the good barometer of fair value of the equity shares at which an informed buyer and an informed seller are willing to transact in the equity shares of the company.

Therefore, considering that the market price method is the best indicator of the value of the listed company, the value of BEL as per DCF Method is worked out by using the business plan provided by the management of BEL <u>only for benchmarking purposes</u> and the valuation of BEL is considered basis for the market price method (please refer Note 3 below) and hence DCF method for valuation for BEL is not applicable.

The DCF Method for valuation of Manufacturing Business of HLL is based on the business plan provided by the management of HLL

Note 3 :

Market Price Method / Market Approach

The market price of an equity share as quoted on a stock exchange is normally considered as the fair value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares. But there could be situations where the value of the share as quoted on the stock market would not be regarded as a proper index of the fair value of the share especially where the market values are fluctuating in a volatile capital market. Further, in the case of a demerger, where there is a question of evaluating the shares of one company against those of another, the volume of transactions and the number of shares available for trading on the stock exchange over a reasonable period would have to be of a comparable standard.

In the present case, the shares of BEL are listed on the recognized stock exchanges viz BSE and NSE and there are regular transactions in its equity shares with adequate volumes. In these circumstances, the share price observed on NSE for BEL over a reasonable period have been considered for determining the value of BEL under the market price methodology.

The reasonable period is considered in terms and compliance of newly inserted Proviso to Clause 70(1)(b) read with Clause 76 of Chapter VII of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations. 2009 (as amended) ('the ICDR regulations'), if the equity shares of the issuer have been listed on a recognised stock exchange for a period of twenty six weeks or more as on the relevant date, the equity shares shall be allotted at a price not less than higher of the following:

- (a) the average of the weekly high and low of the volume weighted average price of the related equity shares quoted on the recognised stock exchange during the twenty six weeks preceding the relevant date; or
- (b) the average of the weekly high and low of the volume weighted average prices of the related equity shares quoted on a recognised stock exchange during the two weeks preceding the relevant date.

The Undertaking is a part of HLL and HLL's shares are not listed on any recognized stock exchange, hence market price method / market approach is not applicable for HLL's valuation.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Interim Ind AS Financial Statement give a true and fair view in conformity with Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34") prescribed under section 133 of the Companies Act, 2013 ('the Act') and other accounting principles generally accepted in India, of the state of affairs of the Company as at 30th September 2018, and *loss* including other comprehensive income for the year-to-date period then ended, changes in equity and its cash flows for the year-to-date period ended on that date.

Responsibilities of Management and Those Charged with Governance for the Interim Ind AS Financial Statements

The Company's Board of Directors is responsible for the preparation and presentation of these Interim Ind AS Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and change in equity of the Company in accordance with the Ind AS 34 and other accounting principles generally accepted in India. The Board of Directors of the Company is also responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgment and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of Interim Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Interim Ind AS Financial Statements, Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternate to do so.

The Board of Directors is also responsible for overseeing the Company's financial'reporting process.

Auditors Responsibility

Our objectives are to obtain reasonable assurance about whether the Interim Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatement can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Interim Ind AS Financial Statements.

Office : 607 & 507. Maruti Plaza, Biock 118/8, Sanjay Place, AGRA- 282 002 Telefax : +91 562 4040023 e-mail : casmco@gmail.com

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Interim Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for resulting from error, as fraud may involve collusion, forgery, intentional omission misrepresentation, or the override of internal control.
- > Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Interim Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Interim Ind AS Financial Statements, including the disclosure, and whether the Interim Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and where applicable, related safeguards.

#### Limited Review Report

Review Report to The Board of Directors Bajaj Electricals Limited

- We have reviewed the accompanying statement of unaudited standalone financial results of Bajaj Electricals Limited (the 'Company') for the quarter ended September 30, 2018 and year to date from April 1, 2018 to September 30, 2018 (the "Statement") attached herewith, being submitted by the Company pursuant to the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, read with SEBI Circular No. CIR/CFD/FAC/62/2016 dated July 5, 2016.
- 2. The preparation of the Statement in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, (Ind AS) 34 "Interim Financial Reporting" prescribed under Section 133 of the Companies Act, 2013 read with Rule 3 of Companies (Indian Accounting Standards) Rules, 2015, as amended, read with SEBI Circular No. CIR/CFD/FAC/62/2016 dated July 5, 2016 is the responsibility of the Company's management and has been approved by the Board of Directors of the Company. Our responsibility is to express a conclusion on the Statement based on our review.
- 3. We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.
- 4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the applicable Indian Accounting Standards ('Ind AS') specified under Section 133 of the Companies Act, 2013, read with relevant rules issued thereunder and other recognised accounting practices and policies has not disclosed the information required to be disclosed in terms of the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, read with SEBI Circular No. CIR/CFD/FAC/62/2016 dated July 5, 2016, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Note	es to the financial results;
1)	Post the applicability of GST with effect from 1 July 2017, sales are required to be disclosed net of GST. Accordingly, the gross sales figures for the half year ended 30 September 2018 are not comparable with half year ended 30 September 2017 and year ended 31 March 2018.
2)	Ind AS 115 Revenue from Contracts with Customers, mandatory for reporting periods beginning on or after April 1, 2018, replaces existing revenue recognition requirements. Under the modified retrospective approach there were no adjustments required to the retained earnings at April 1, 2018. Also, the application of Ind AS 115 did not have any significant impact on recognition and measurement of revenue and related items in the financial results.
3)	During the quarter, the Company has issued and allotted 1,75,270 Equity Shares of Rs.2 each, pursuant to exercise of stock options by eligible employees and the said shares are ranking pari-passu in all respect including dividend entitlement.
4)	Pursuant to continuous reduction in the CFL business and future outlook, Company had re-assessed the recoverability of its investments and loans provided to Starlite Lighting Limited (Joint Venture) and consequently impaired it fully in standalone financial results and disclosed as an exceptional item for the year ended March 31, 2018
5)	Pursuant to the Share Purchase and Shareholders Agreement dated 15 June 2018 ("Agreement") entered into with Nirlep Appliances Private Limited ("Nirlep") and its shareholders, the Company has, on 1 September, 2018, acquired 80% of the equity shares of Nirlep for the total consideration of Rs. 30.77 crores. Accordingly, Nirlep has become a subsidiary of the Company. The Company has a call option to acquire remaining 20% shares as per the terms of the share purchase agreement.
6)	The Board of Directors of the Company, at its meeting held today i.e. on November 1, 2018, has approved to give corporate guarantee to the lenders of Starlite Lighting Limited (SLL), a joint venture of the Company, in respect of SLL's proposed issue of non-convertible debentures of Rs 60 crores. With this, the total amount of corporate guarantees given by the Company on behalf of SLL stands at Rs. 242 crores.
7)	Above results have been reviewed by the Audit Committee, approved by the Board of Directors in their respective meetings held on November 1, 2018.
8)	These standalone financial results are available on the Company's website viz. www.bajajelectricals.com and on the websites of BSE (www.bseindia.com) and NSE (www.nseindia.com).

- 6. For this purpose, HLL and BEL collectively engaged Messrs Katre Barwe & Associates ("New Valuer"), as independent valuer to recommend revised Share Entitlement Ratio in connection with the Scheme. During the analysis, the New Valuer relied upon the Valuation Report issued by the earlier Valuer and recommended a revised Share Entitlement Ratio, in light of the revised applicable legislations, vide its valuation report dated October 31, 2017 which is enclosed as Annexure B-1 ("Revised Valuation Report").
- 7. BEL appointed SPACAL as the merchant banker to provide an independent opinion to the board of directors of BEL as to the fairness of the revised Share Entitlement Ratio recommended by the New Valuer.
- SPACAL reviewed the Revised Valuation Report and the draft Scheme and carried out such independent analysis as is customary for issuance of fairness opinions. In its report dated November 1, 2017, enclosed as Annexure B-2 ("New Fairness Opinion"), SPACAL concluded that the following Revised Share Entitlement Ratio recommended by the New Valuer is fair:

"97 equity shares of BEL of ₹ 2 each fully paid up for every 1000 equity shares of HLL of ₹ 25 each fully paid up."

 Based on the Revised Valuation Report, the New Fairness Opinion and presentation made to the board of directors of the Companies, the Revised Share Entitlement Ratio was approved by the respective boards of the Companies in their respective meetings held on November 9, 2017.

#### **INTERNAL RISK FACTORS**

- a) With the accumulated losses, the net worth of the Demerged Company is negative. Further, the Demerged Company has been declared as a sick industrial company within the meaning of section 3(1)(o) of SICA by BIFR. This exposes the Demerged Company to the risk of bankruptcy and insolvency.
- b) The Auditors of the Demerged Company have included the following "Basis of qualified opinion" in their audit report dated January 2, 2019 on the financial statements of the Demerged Company for the period ended September 30, 2018 :

"Regarding recognition of Deferred Tax Assets, aggregating ₹ 11,64,80,418/- as at September 30th, 2018 (Previous Year ₹ 11,46,52,800/-) in spite of absence of convincing evidence of availability of adequate future taxable profits to demonstrate virtual certainty of reversal of such deferred tax assets, which is not in accordance with the requirements of Ind AS-12, Income Taxes."

- c) The demand for GLS was severely impacted because of introduction of CFL and LED bulbs having long life. The Demerged Company will need to offer value proposition to its customers to develop business further.
- d) In view of the growth potential in the lighting industry, increased number of players are entering in this segment. Increased competition is likely to put pressure on the existing players. Also, due to competitive nature of the market, pricing pressures persist.
- e) It is a constant challenge to retain the right talent as there is imminent short-term risk from new entrants and existing domestic players.
- f) Non-availability of regular and quality electricity supply is an issue as it may impact overall demand for electrical products.
- g) Clause 17 of the Scheme provides that in the event of any of the sanctions and approvals referred to in this Scheme not being obtained and/or this Scheme not being sanctioned by NCLT or such other appropriate authority and/or order or orders not being passed as aforesaid, or for any other reason, this Scheme cannot be implemented, then the Board of Directors of the Resulting Company and the Demerged Company shall mutually waive/incorporate such conditions as they may consider appropriate to give effect, as far as possible, to this Scheme and failing such mutual agreement, the Scheme shall become null and void, and they shall bear their respective costs, charges and expenses in connection with this Scheme.

- h) In past, the Demerged Company has entered into related party transactions.
- i) Some of the Demerged Company's historical, legal and secretarial records are not readily traceable.
- j) The Demerged Company is subject generally to changes in Indian law, as well as to changes in government regulations and policies and accounting principles. Any changes in the regulatory framework could adversely affect the profitability of the Demerged Company or its future financial performance, by requiring a restructuring of its activities, increasing costs or otherwise.
