

Home Essentials

Sparking joy in a million lives

From LEDs to lanterns, our range of lighting solutions are designed to brighten up your spaces, be it home, offices or outdoors. Every product is sure to add more sparkle to your lives, thanks to their energy efficiency. And these innovative products will make sure your spaces will look radiant as ever.

KNOW YOUR BAJAJ LIGHTS

Features and specifications guide

FTL

**POWER
SAVING**

Up to 30% energy saving
as compared to nearest
T8 FTL equivalent

**MORE
LIGHT**

Brighter light as compared
to conventional product
with same wattage consumption

**LASTS 3X
LONGER**

Lasts 3 times longer
than conventional product,
longer life

D-LITE

**LIGHTS UPTO
8 HOURS**

Battery back-up of up to 8 Hrs
with intermittent use

**HEAVY DUTY
6V BATTERY**

Heavy duty performance providing
light for longer duration

**3 BATTERIES
FREE**

Savings for customer
as 3 batteries are free

**LIGHTS UPTO
7 HOURS**

Lasts longer providing
bright light

**2 MODE
SWITCH**

Provides option for optimal
use as per requirement

**3 MODE
SWITCH**

Provides option for optimal
use as per requirement
with indication

**ENVIRONMENT
FRIENDLY**

No use of UV/IR;
No use of Mercury

**MOBILE
CHARGING
OPTION**

Option of mobile recharging
without consumption of
additional electricity

**BATTERY SAVING
2 MODE SWITCH**

Provides option for optimal
use as per requirement

**UPTO 250 TIMES
RECHARGEABLE**

Battery recharge cycles
of 250 times ensuring
longer usability

**GLARE
FREE**

Protects from any kind
of discomfort on eyes due
to direct light

48W LED

Uniform bright light

**PB SWITCH
CONTACT**

Ease of operation
and durable

**3W SOLAR
PANEL**

Charging of lantern
through solar panel

**50000 HRS
OF LED LIFE**

Long life of
up to 50,000 Hrs

LED

25,000
HOURS

Long Life of
up to 25,000 Hrs

WIDE OPERATING
VOLTAGE

Protects from the voltage
fluctuation, performing within
wide operation range of
100V ~ 300 V thus providing
reliable & durable product

VSP
TECHNOLOGY

Protection from sudden surge
of electrical voltage viz lightning

POWER
SAVING

Up to 85% energy saving
as compared to nearest
incandescent bulb equivalent
measured according
to IEC 969 standard

ECO-FRIENDLY
LIGHTS

No use of UV/IR;
No use of Mercury

3 LIGHTS
1 SWITCH

Light step dimming can be done
by a regular switch

ELECTRICAL ACCESSORIES

2 METRE
WIRE LENGTH

Extra long wire for ease
of operations

FIRE RETARDANT
CABLE

Prevents from
catching fire

CORONA 3 STEP DIMMING LED BULB

- 3 step dimming with light output of 100% at stage 1, 50% at stage 2, 25% at stage 3
- 100 lm/Watt
- 2.5 kV Voltage Surge Protection
- Beam angle > 240°
- CRI > 80
- Power factor > 0.9
- Available in CDL (6500K) with B22 Cap only
- Available in 8W & 12W

T8 FTL 36W

- Available in 18W & 36W
- Available in CDL (6500K) Only
- Lumen output of 2450lm for 36W CDL & 1015lm for 18W CDL

T12 FTL

- Available in 40W only
- Available in CDL (6500K) Only
- Lumen output of 2450lm

RETROFIT ECOLUX T4 LINEAR

- Energy efficient
- Instant start
- High power factor
- Life span: 6000 hrs
- Available in CDL
- Available from 9W to 25W

RETROFIT HIGH WATTAGE

- Available in 36W, 45W, 65W & 85W
- Choice of linear and spirals
- Highly energy efficient
- Colour temperature: 6500 K
- Life span: 6000 hrs
- Available in CDL
- Available in B22, E27 & E40 cap type
- Lumen output of 1575lm for 27W, lumen output of 1950lm for 32W at colour temperature 6500 K

• **Available in CDL • Life span: 6000 hrs

E-GLOW 28

- Sleek T5 luminaire in extruded plastic body
- Pre-wired with energy efficient electronic ballast (p.f. >0.85)
- Available in 28W only
- Available with diffuser or without diffuser also
- Available with tube or without tube only

BAJAJ SAVELITE SLEEK 36W ELECTRONIC

- Sleek strip type luminaire designed for 36 watt FTL
- Strip type FTL luminaire wired with elegantly designed energy efficient electronic ballast (p.f.>0.90) and decorative end caps.
- Luminaire made of pre-coated CRCA sheet

SAVELITE 36/40W ELECTRONIC

- Strip type FTL luminaire designed for FTL 36W/40W, wired with elegantly designed energy efficient electronic ballast (p.f.>0.90) and decorative end caps.
- Luminaire made of pre-coated CRCA sheet

ECOBX 36/40W ELECTRONIC

- Box type FTL luminaire wired with elegantly designed energy efficient electronic ballast (p.f.>0.90)
- Box luminaire made of pre-coated CRCA sheet

E-SAVER LX 36/40W ELECTRONIC

- Ballast type - Electronic regular
- Electronic ballast enclosed in an elegantly designed slim white ABS housing for domestic applications
- These ballast have high power factor (>0.90) and are energy efficient
- Available in 18/20W electronic ballast

E-SIGN 36/40W ELECTRONIC

- Lamp type - 1x36/40W FTL
- Ballast type - Electronic regular
- Electronic ballast enclosed in a white ABS housing for signage/cove lighting applications
- These ballast have high power factor (>0.85) and are energy efficient

NUSTAR 36/40W CCB

- Strip type FTL luminaire wired with VPIT Aluminium ballast
- Luminaire made from CRCA steel sheet, pre-treated in 8 tank process for degreasing, derusting, phosphating and passivation and white powder coated.
- Also available in 18/20W VPIT Copper

UNIVERSAL STARTER 20/40 ABS

- Universal starter 20/40 ABS
- Lamp type - FTL
- Body type - ABS
- Also available in Aluminium body

DECORATION LAMPS

- Available in clear, decorative colour & frosted
- Colours available - Blue, Green, Red, Yellow, Orange & Milky

GLS CLEAR / MILKY LAMPS

- Available in 40W, 60W, 100W (Clear & Milky) & 200W
- Life span of 1000Hrs
- Lumen output of 415lm for 40W, lumen output of 710lm for 60W, lumen output of 1340lm for 100W (Clear), lumen output of 1248lm for 100W (Milky), lumen output of 3000lm for 200W

SPIKE AND SURGE GUARD

- Voltage - 250V ~ 50Hz
- Power - 1500 VA
- Current - 6A
- Product dimensions - 290 mm x 68 mm x 28 mm
- Protects the equipment from sudden surge in electric current
- 4 sockets for compatibility with multiple countries plugs
- Suitable for use in household, offices, shops, restaurants, hospitals and more

Features and specifications guide

CONSTRUCTION

Increases durability & makes the body lighter

Increases load bearing capacity & durability

Increases durability & makes the body lighter

Powerful high torque motor to provide consistent performance

Improves blade stability

Increases durability & restricts blade wear & tear

Higher the stack, stronger the motor

Unique look & lighter blades

Improves home décor with decorative light option

Blades made with high grade aluminum sheets for higher durability and consistent performance

Set timings, power and speed

Improves home décor with decorative LED light option

Acts as a fuse and protects the motor from damage

400 mm blades for higher air delivery

Provides convenience due to a regulator-free operation

Consistent air delivery and zero warp from air pressure - even over time

Increases durability & provides robust performance

DESIGN

**ROTATING
GRILL**

Aesthetically appealing

**WIDE
BLADES**

For better air delivery

**UNIQUE
SHANKLESS
DESIGN**

Eliminates the use of shanks to hold the blades. Helps provide cleaner & classier looks

**ANGULAR
DESIGN**

Provides better performance with improved aerodynamics & better aesthetics

**AERODYNAMICALLY
BALANCED BLADE**

For reduced drag resistance and improved air delivery

**SLEEK
DESIGN**

For a streamlined look and improved aesthetics

**STATIONARY
BOTTOM COVER**

Helps keep the character visible even during fan operation

**SLIM
DESIGN**

For clean aesthetics

**ANTIQUE
DESIGN**

Antique inspired design to match your décor

PERFORMANCE

**SILENT
OPERATION**

High efficiency minus the
air cutting sound

**HIGH AIR
DELIVERY**

Improves the feel of air
with higher air delivery

HIGH SPEED

Provides High RPM
(Ceiling Fan : > 360 RPM
All other category fans : > 2000 RPM)

**EXCELLENT
PERFORMANCE
AT LOW VOLTAGE**

Provides performance even
at 180 V (300 RPM & air delivery
200 CMM)

**ENERGY EFFICIENT
PERFORMANCE**

Provides better performance
& consumes less power

**QUICK-START
HIGH TORQUE MOTOR**

Provides instant comfort by
achieving high performance quickly

**LOW POWER
CONSUMPTION**

Saves electricity by consuming
less power

**ISI
STANDARDS**

Provides performance as per
ISI standards

**5 STAR
ENERGY SAVING**

Rated 5 Star by BEE. Provides
higher service value (more than 4)

**GREAT VALUE
FOR MONEY**

Good performance at
an economical price

**HIGH SPEED
DECORATIVE FAN**

High speed fan with decorative
ornament so that you get a
combination of performance
and looks

**HIGH AIR
THRUST**

Experience high blast of air

**2 YEAR
WARRANTY**

2-year warranty

AESTHETICS

**REVERSIBLE
BLADE**

Provides 2 colour options
in a single blade

**2 TONE
METALLIC FINISH**

Improves aesthetics with
motor body bottom in a different
metallic colour than the blades

**METALLIC
FINISH**

Improves aesthetics & provides
super clean surface finish

**HIGH QUALITY
WOODEN FINISH**

Wooden finish options
for a classy feel

**RUST-FREE POWDER
COATED FINISH**

Improves durability by
ensuring protection against rust
& providing a super clean surface

**UNIQUE DECOR
ORNAMENT**

Improves aesthetics with
a unique design

**UNIQUE PICTURE
TRANSFER TECHNOLOGY**

For vibrant and
realistic characters

**METALLIZED
ORNAMENT
& BODY RING**

Provides the bling to your fan
with metallic deco ornament

**EMBEDDED
ORNAMENT**

Provides a unique design

Sweep stakes: How the “sweep” of your fan makes a difference

The ‘sweep’ of a fan is the length of its blades, as calculated from their outer edge to the centre of the motor. The length of the sweep determines the amount of air that a given fan is capable of churning.

You should ideally choose a sweep depending upon the size of your room. A larger room requires a fan with a longer sweep to keep it cool, whereas a smaller room can be effectively cooled with a fan with a shorter sweep.

How to calculate the ideal sweep for your room:

- Find out the prospective fans’ Sweep in millimeters and multiply it by 2
- Now match the figure against the table below to find the perfect fan for your room!

| Size of the room | Fan sweep in mm |
|------------------------|----------------------------|
| Upto 10' x 10' | 900 or 1050 |
| 10' x 10' | 1200 |
| 10' x 12' or 12' x 12' | 1400 |
| More than 12' x 12' | 2 or more fans recommended |

Tips to get the most out of your ceiling fan:

- The room should ideally be well ventilated (there should be an open window or door)
- The gap between the ceiling & the blades should be at least 1 foot
- The fan (blades) should be at a height of 8 feet from the floor

Ceiling Fans
